

What's Next in Supply Chain Cybersecurity?

Managing Third-Party Risk in 2025

sales@briskinfosec.com

Swipe ►►

Growing Exposure

- 🔗 62% of major breaches in 2025 were traced back to vendors/third parties (Forrester)
- 🔗 As-a-service and SaaS ecosystems are multiplying hidden risks

Swipe ►►

Current Risks

- 🔗 Insufficient vendor vetting
- 🔗 Lack of continuous access review
- 🔗 Compliance “blind spots” across diverse suppliers

Insight

Manufacturers see IT/OT supply chain integration as a new risk frontier.
