Cloud Security Assessment

Briskinfosec tests any cloud platform, irrespective of whether you host a Public Cloud, Private cloud, or a Hybrid cloud. We will ensure that your cloud stack and application is secure.

Briskinfosec's Expertise in Testing and Security include:

- Infrastructure as a Service (IaaS),   - Platform as a Service (PaaS),   - Software as a Service (Saas)

and all types of environments.

Brisknfosec team validates your cloud deployment services and if isn't secure, instantly acknowledges you with remedial services without any procrastination.

Approach

BriskInfosec process is tailored to fit your requirements and is highly effective in protecting your business from losing confidential and valuable information.

Standards we follow

- › OWASP
- › ITIL
- › PTES
- › ISO/IEC 27001 and 27002
