

# DATABASE SECURITY ASSESSMENT

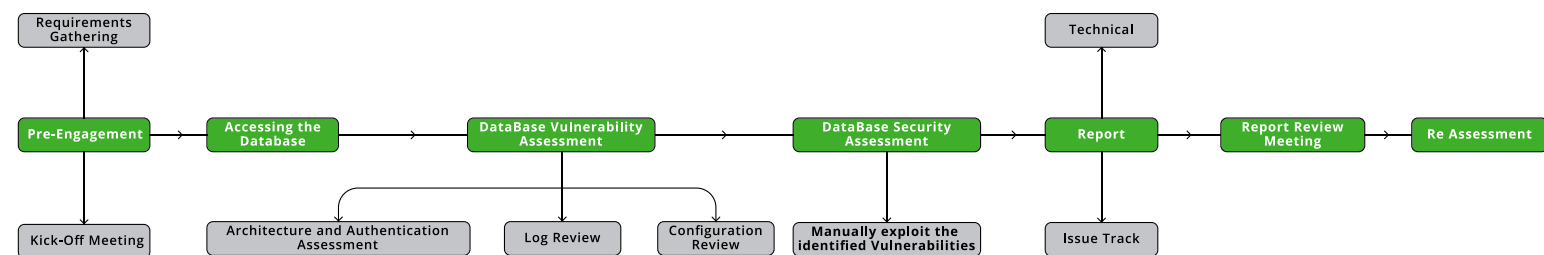

Database security assessment

Database Security Audit

Database Penetration test

## Database Security Assessment

BriskInfosec's Database Security Assessment is an integral approach which provides systematic and proactive security to the database. BriskInfosec's Database security testing eliminates the risk associated with both web and database specific attacks and support compliance with relevant standards, laws & regulations. Database architecture review and configuration review will be part of the service.

## Approach

BriskInfosec process is tailored to fit your requirements and is highly effective in protecting your business from losing confidential and valuable information.

## Standards we follow

- > OWASP
- > SANS
- > ISO 27001
- > NIST SP-800
