Mobile App Security Testing

Mobile App Security Assessment

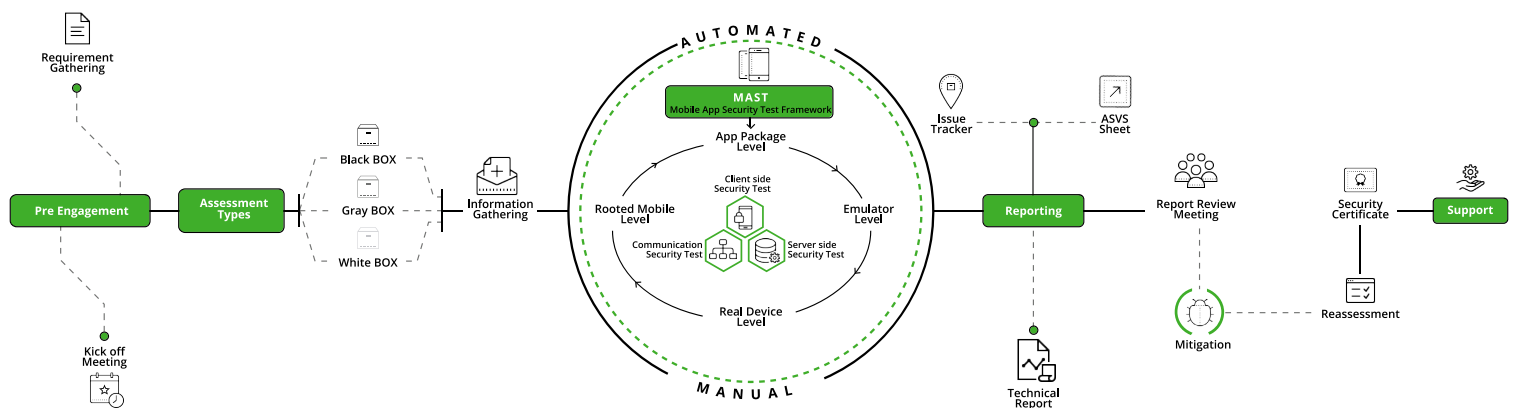

Mobile App Penetration Test

Android App Security Assessment

IOS App Security Assessment

## Mobile Application Security Assessment

Briskinfosec mobile application security ( Android/IOS ) testing solution discovers malicious or potentially risky vulnerabilities in your mobile applications. We will also cover API security assessment as part of your mobile app security test. We will minimize the risk exposure to keeping your business and customers secure against day to day cyber-attacks.

## Approach

BriskInfosec process is tailored to fit your requirements and is highly effective in protecting your business from losing confidential and valuable information

## Standards we follow

- > NCDRC - MAST
- > OWASP
- > OSSTMM
- > PTES
